

# Centering Guide for Jaguar E-Type Console

For Series I 4.2, and Series II Jaguars.

**E**nhance your E-type and prevent harm to your console!

This handsome bar guides your armrest to a perfectly centered position every time you close it. More importantly, it will withstand the force of pilots and passengers alike, who push sideways on your armrest when entering/exiting your XKE--a common cause of console or hinge damage!

Made of solid walnut, with pre-drilled and countersunk screw holes. Comes complete with quality stainless steel screws and instruction sheet. No drilling required. Simply remove the existing flat plate on your console lid, and replace it with this functional guide. Sold two ways: Beautifully Hand Finished with 4 coats of clear laquer, or a Do-It-Yourself, unfinished version.

Inexpensive insurance for your console--a worthy addition to your E-type!

P1184U: Unfinished Centering Guide Kit for E-Type.....\$19.95  
P1184F: Hand Finished Centering Guide Kit for E-Type.....\$29.95
